

Pro/ENGINEER® Wildfire 5.0

"First Choice for Pro|ENGINEER™"

Hundreds of New Pro/ENGINEER Capabilities
Wildfire 5.0: Accelerate Time-to-Productivity 10x
Wildfire 5.0 Increases Design Efficiency 80%

Pro/ENGINEER® Wildfire 5.0:
Take Your Productivity to an Entirely New Level

Re-activate Maintenance Support and Update Today!

This powerful new release features hundreds of new capabilities that **accelerate your time-to-productivity by a factor of 10!** Plus, it increases design efficiency by 80%!

Right now, when you re-activate **Maintenance Support**, you're automatically entitled to **Pro/ENGINEER Wildfire 5.0**, along with **update training** and **24 x 5 support**.

Pro/ENGINEER® Wildfire 5.0:

Helps you eliminate the key barriers to design productivity and drive dramatic efficiency gains:

- Increase plastic part design efficiency by up to 80%
- Analyze weldment models up to 10x faster
- Route cables in 40% less time and pipes in 60% less time
- Create facing toolpaths up to 5x faster
- Create simplified sub-assemblies 78% faster
- Create sheet metal parts 30% faster; place forms 82% faster

Now is the ideal time to re-activate your Maintenance Support so you can start working in Pro/ENGINEER Wildfire 5.0.
